

Swimtrainer Classic by FRED'S SWIM ACADEMY GmbH WINS the Gold Award at Family Review Center!

FRED'S SWIM ACADEMY GmbH has earned a Gold Award for their amazing Swimtrainer Classic!

FOR IMMEDIATE RELEASE

*PRLog (Press Release) - Jan. 29, 2013 - Phoenix, AZ - Family Review Center was proud to announce today that the coveted Gold Award has been awarded to FRED'S SWIM ACADEMY GmbH for their **Swimtrainer Classic**.*

The advantages of the Swimtrainer Classic device are: it is for babies from 3 months on up to 4 years old. It offers a perfect swimming position with no sliding through dangers or problems with tipping over. It is also very quick and easy to put on, so it is used consistently rather than tossed aside as a bother. This is a great way to teach children swimming technique in a safe way that they will not mind. It has been developed with a child's safety and comfort in mind. It is also a

mind easing product for parents, as they know their child is safe when it is in use. However, we must stress, as with any swimming / water device, never leave a child in water unattended. There is no safety in solo water adventures for children, no matter what safety device is used.

Family Review Center has offered free, professional reviews to family friendly products since 2000. Thirteen years of bringing you the best of the best. Stop by and check out this review / award and the others offered at the review center any time. www.familyreviewcenter.com 24/7 to serve you!
